TopoDroid exports

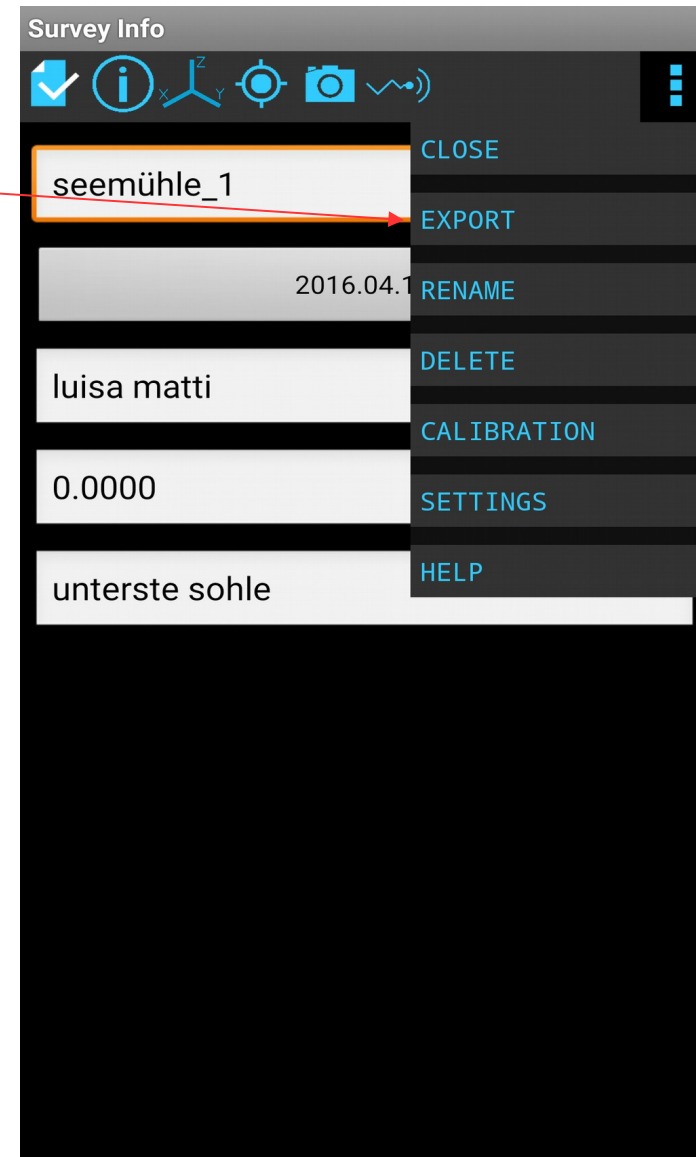

- Survey data
 - Survey sketches
 - Zip archives
-
- If default export formats (data and/or sketch) are defined, these are automatically exported, and included in the zip archive

Survey Data Exports

- Compass (dat)
- cSurvey (csx)
- PocketTopo (top)
- Polygon (cav)
- Survex (svx)
- Therion (th)
- Topo (cave)
- VisualTopo (tro)
- Walls (svx)
- CSV (csv)
- DXF (dxf)
- KML (kml)
- OziExplorer ()

Data Exports

- From the survey-info window
- menu “export”
- select format
- “save”

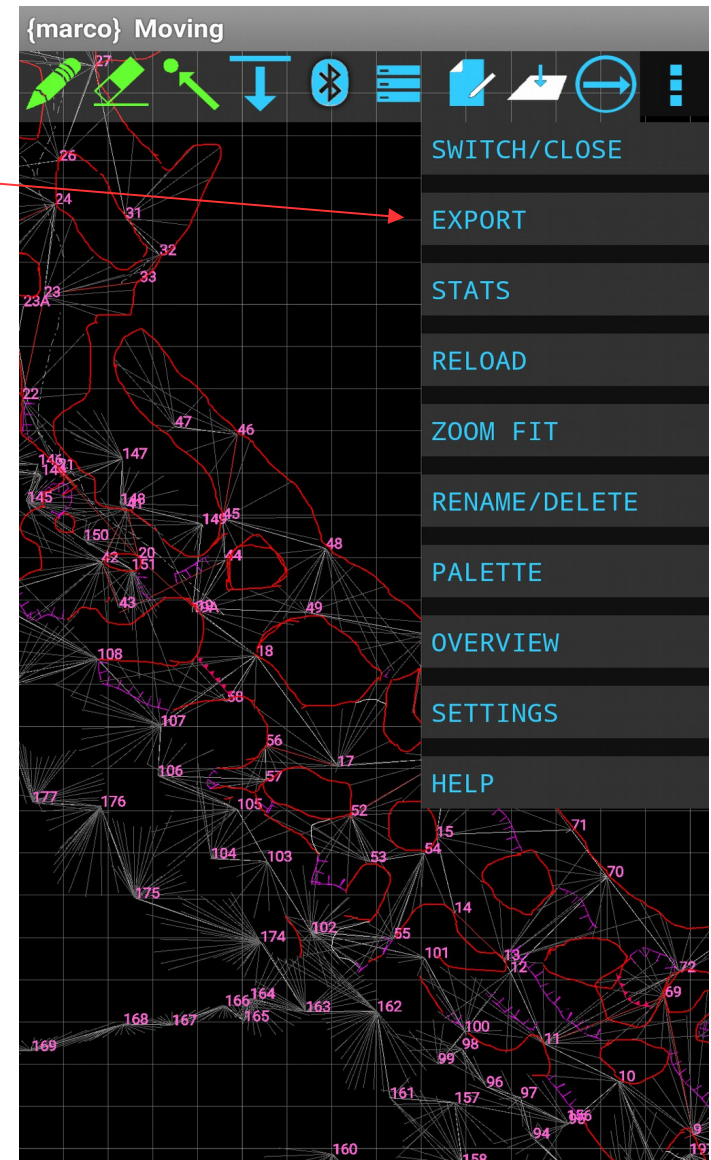

Sketch Exports

- Therion (th2)
- cSurvey (csx)
 - one file plan + profile
 - no cross-sections
- DXF (dxf)
- SVG (svg)
- PNG (png)

Sketch export

- From the sketch window
- menu “export”
- select the format
- “save”

Zip Archive

- First among the “data export” formats
- It includes
 - database records of the survey
 - annotation file
 - image files
 - sketch (tdr) files
 - exported files
- Good as a backup,
and to transfer a survey to another Android device
